ARTISTIC STATEMENT

I am mirroring Life in my Art.

My Mission is to bring a bit of beauty, touch of humanity, and maybe even consolation into our world.

If only one Heart warms just a little, when viewing my work, my Mission is accomplished.

MY STYLE

My style is contemporary - abstract, descriptive, even whimsical, and symbolic. I love legends and equines, thus I often paint old historical characters with their horses. I use strong colours, structures and textures on canvas.
